To Whom It May Concern,

I am a Franchise Field Representative for InFrasys, the franchisor for the SealMaster franchise system, where I have regular contact with our graphics department. I have worked with Molly McFaddin for the past five years, including working closely with her on several projects. A very creative artist, she has always been well prepared and organized, and has shown the highest degree of professionalism. She is a hard worker, while being pleasant and humorous, and makes working with her very enjoyable.

I heartily recommend her for any position that she is applying. She will be an asset for any company that hires her. If you have further questions, do not hesitate to contact me.

Yours Sincerely,

**Ron Brooker**
